

Errata for Free Expression and Constructive Dialogue in the
University of North Carolina System

June 8, 2022

1. Table 3 of the report states there to be 490 complete responses from UNC-Wilmington. The correct number is 489. (The original analysis neglected to exclude one test response.)
2. Table 4 of the report misstated the proportions of students with various ideological leanings at Appalachian State University. The corrected figures are as follows:

	AppState: Original	AppState: Corrected
Liberal	57%	53%
Moderate	17	18
Conservative	17	20
Undefined	9	9
Total	100%	100%

This error occurred because the authors forgot to update a draft version of this table based on partial data from AppState. (See footnote 4 in the report.)
